SUMMARY

Computer Science student with hands-on experience developing machine learning classification models and data analysis pipelines. Proficient in Python and libraries including scikit-learn, TensorFlow, PyTorch, and NLP tools such as NLTK and spaCy. Passionate about generative AI and natural language processing, with strong analytical problem-solving skills and collaborative research experience.

EDUCATION

GLA University

Bachelor of Technology, Computer Science

• GPA: 7.0/10

Jun 2027

Mathura, Uttar Pradesh

C B School Aashiana Kanpur Road

Intermediate

• GPA: 72%

May 2022

Lucknow

Happy Model School

High School

• GPA: 89.6%

May 2020

Chittupur, Varanasi

WORK EXPERIENCE

Intrainz Innovation

Oct 2024 - Dec 2024

Machine Learning Intern

- Developed a deep learning classification model using neural networks in TensorFlow achieving ~85–90% accuracy in detecting fraudulent transactions
- Performed data preprocessing, feature engineering, and model training using Python and PyTorch
- Evaluated model performance using analytical skills to derive insights from accuracy, precision, recall, and confusion matrix

PROJECTS

Orvika AI — Privacy-First Research Assistant (Flagship Project)

- Designed and developed a Retrieval-Augmented Generation (RAG) system for analyzing sensitive documents locally while performing external research through cloud LLMs without exposing user data.
- Built a document intelligence pipeline supporting PDF, DOCX, PPTX, TXT, audio, and video ingestion using local processing, semantic chunking, embeddings, and FAISS vector search.
- Architected a hybrid AI workflow combining local LLM reasoning, vector retrieval, and multi-model research agents to generate grounded, citation-backed reports.
- Implemented privacy-first architecture using local storage, encrypted API key management, audit logging, and transparent outbound request monitoring

GestureWave AI — Touch-Free Gesture Control System

- Developed a real-time hand gesture recognition system using Python, OpenCV, MediaPipe, and deep learning techniques.
- Implemented hand tracking and gesture classification for touch-free computer interaction.
- Optimized inference performance for low-latency gesture detection and improved real-time responsiveness.
- Built an intuitive computer vision pipeline capable of recognizing multiple hand gestures for system control.

SKILLS

- **Programming:** Python, JavaScript
- **Machine Learning & Deep Learning:** scikit-learn, Model Evaluation, Feature Engineering, Machine , TensorFlow, PyTorch, Neural Networks, Deep Learning
- **Data Analysis:** Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Analytical Skills
- **Computer Vision:** OpenCV, MediaPipe
- **Web Development:** HTML, CSS
- **Data Tools:** SQL (Basic), Excel (Pivot Tables, Data Cleaning)
- **Tools:** Git, GitHub
- **AI & NLP:** LLM, NLP, Agentic, Langchain, SpaCy, Generative AI

CO-CURRICULAR ACTIVITIES

GLA University

Synergy Coordinator, Entrepreneurship Cell

GLA University

General Secretary, CSED Club

ACHIEVEMENTS

- Completed Data Science & Analytics certification by HP LIFE.
- Completed Deloitte Australia Technology Job Simulation.
